The greatest horticultural country in the United States is destined to be in the west. Our climate is so admirably adapted to the growth of small fruits. The only difficulty in the past has been the lack of moisture to mature the crop. It does not require a great deal of water to irrigate horticultural products. Any farmer with an ordinary windmill can grow a good sized patch of berries, grapes, etc. The abundance of sunshine on these western plains gives fine coloring and flavor to the fruit.—Irrigation Farmer.

#### THE RECORD MADE.

History will find but one very material criticism of the third legislative assembly and this will be that combinations held up business until a late hour and caused a failure to pass a bill for the government of the school lands of the territory. Such a bill was badly needed. Among the good measures passed were the following:

A fee and salary bill which saves from \$2,000 to \$15,000 a year to each of the counties of Oklahoma, and an aggregate saving to the territory of more than \$100,000. Under this bill officers are under the severest penalties to make quarterly and annual reports to the board of county commissioners and to turn over to the county all excess fees. Logan county will save under this law at least \$10,000 per year in court costs alone. We understand the district clerks, who are cut down to \$300 of criminal fees to be paid by the county, are trying to get the governor to fail to attach his signature to council bill No. 1. To fail to sign this bill would be little less than a crime, and a responsibility which we think the governor will not want to put on the democratic party.

A bond bill which allows the territory, counties and municipalities to fund their indebtedness into twenty or thirty year six percent bonds and providing that no sinking fund shall be levied until the bonds are nine years old, which will lift five mills annually of tax from the present burden of taxation.

A thorough revision of the election laws, simplifying and economizing to a large extent.

A system of revenue laws which put the counties of the territory practically on a cash basis after the first week in July, at which time the boards of county commissioners are to estimate the amount necessary for county expenses and make a sufficient levy therefor and prescribing a penalty for contracting an indebtedness of more than 80 per cent of the levy made. Under these new laws specific levies are made for each fund and one fund cannot be diverted to another unless at the end of the year all charges against it are paid and a surplus left. The warrants of each year are drawn against the levy of that year, placing each year to itself and making it absolutely certain that every warrant will be paid by the taxes of the year against which it is drawn. The time for the territorial board of equalization to meet is changed to the 15th of June, so that the assessments may be certified to the board in time to make the July levy.

The territory was apportioned into legislative districts.

The codes of criminal and civil procedure are thoroughly revised, simplified and economized. Now, in stead of being three volumes in misadventure, from a justice of the peace court to the grand jury, and from the grand jury to the district court, the county paying the ex-

permanence for each trial, there is but one trial and that by information and the county is only liable for one-half of the costs which accrue therein, if the same cannot be paid by the defendant. Grand juries are limited to an aggregate of \$14 for each grand jury for each sitting of the same.

The probate courts are granted divorce jurisdiction and made co-equal with the district courts in all suits under \$2,000, with final jurisdiction in the cases, and appeal on questions of law is allowed direct to the supreme court, which will assist in obviating the apparent injustice of district judges sitting as supreme judges on their own cases, and will prove a great saving to litigants.

A soldiers' home located at Fort Supply. The appropriation of \$5,000 a year to apply after the government has donated the reservation and buildings thereon to the territory.

All county seats and present territorial institutions are left where they are and no new institutions located. A law thoroughly revising the management of the agricultural college and providing that the money received from the government shall be placed on deposit with the bank which will pay the highest rate of interest for the average deposit and give the requisite bond therefor.

All usury laws were repealed, leaving money open in a competitive market as is everything else, and prescribing that the rate of interest on judgments, and on obligations where the rate is not contracted, shall be 7 per cent.

All vicious legislation was cut down upon in an earnest desire to legislate for the advancement of the territory and the good of all the people.

SIGNAL TRIUMPHS WON

By Dr. Price's Cream Baking Powder.

Two signal triumphs have been achieved by Dr. Price's Cream Baking Powder. First it received Highest Award and Diploma at the World's Columbian Exposition of 1893. Next it secured Highest Award and Gold Medal at the California Midwinter Fair of 1894.

At both Fairs it surpassed all competitors in every respect. The award, in each instance, was for strongest leavening power, perfect purity and general excellence. It was sustained by the unanimous vote of the judges.

The victory at Chicago establishes the supremacy of Dr. Price's "The Purest Baking Powder in the World." The triumph at San Francisco confirms and emphasizes it.
